## **Indiana University Memorial Stadium North End Zone Facility**

Ground was broken in July 2007, for the North End Zone Facility, which is an expansion of Indiana University's Memorial Stadium, home of the Indiana Hoosiers football team. Construction for the project is scheduled for completion in the fall of 2009.

The North End Zone Facility will transform Memorial Stadium into a horseshoe layout, connecting the east and west seating stands, complete with a new seating bowl and outdoor club area. The expansion adds 6,000 seats, including 400 club seats.

Additional interior spaces are located below and behind the seating bowl including:

- A 24,000 square foot state-of-the-art strength and conditioning center that will provide student athletes, in every varsity sport, with access to essential weight training and cardio equipment.
- Headquarters for Indiana's football program, featuring new staff offices, position meeting rooms and a team auditorium.
- The "Hall of Champions", a premier entertainment space for special events that will feature and celebrate achievements in the history of Indiana University athletics.
- Athletic administration offices.
