

**Purdue University
Center for Student Excellence and Leadership
West Lafayette, Indiana**

The Center for Student Excellence and Leadership houses space supporting programs that help retain students and augment their ability to succeed at the University, along with space supporting student leadership activities such as student organizations and some administrative functions that provide assistance. Space types include student studying/tutoring rooms, staff offices, meeting rooms, counseling areas, student organization office areas, student work rooms, design space, storage spaces and a student senate meeting room.

A structural steel frame with vertical steel bracing was used for the building's frame. Conventional spread footings constitute the foundation system. The estimated area is 85,000 GSF, which includes a partial basement, four floors, and a mechanical penthouse. The university's construction budget for this project was \$21,000,000.
