

Hyatt Place/Hyatt House Hotel Denver, Colorado

Hyatt Place/Hyatt House Hotel is the first dual-branded project in the Denver area. It is located in the heart of the city's business district. The 21-story hotel is over 304,000 square feet and will offer 361 guestrooms.

The basement and first level of the hotel consists of the lobby, lounge, dining areas, meeting space and hotel back of house functions. The next four levels is a parking garage. On level six there is a pool, fitness center and guest rooms. The above 15 levels are all guest rooms. All the levels above grade are constructed of post-tensioned flat slabs.
