

Indiana Live Casino Parking Garage Shelbyville, Indiana

The Indiana Live Casino parking garage is a 5-level 1,150 space parking garage adjacent to the casino. The structural system is a cast-in-place post-tensioned concrete frame. Post-tensioned concrete was chosen for the durability, security and driver comfort.

Typical bays are 24'-5" x 61'-0". A 7" post-tensioned slab is used supported by 14" x 38" beams. The façade consists of pointed concrete bumper walls with masonry and EIFS accents. The garage is connected to the adjacent casino via a cantilevered walkway.
